

Morgan Crapps

Director of Public Affairs & Government Relations,
Redwood Materials

“Redwood Materials is on a mission to build a circular supply chain for lithium-ion batteries. My vision is to leave South Carolina better than I found it, making a safer, cleaner world for my daughters and future generations.”

Michael Pratt

Sustainability Manager, Sonoco

“Sonoco has a long history of driving demand for recycled materials. All paper produced at our Hartsville, S.C., mill is made with 100% recycled material, supporting a circular economy and reducing waste for a more sustainable future.”

Hunter Renfrow

Business Development, ESS Industrial

“When we recycle, we’re not just helping the environment — we’re supporting the hardworking families like ours at ESS Industrial. Our company is proud to be part of South Carolina’s small business community, and by recycling, we can help it grow, create more jobs, and thrive.”

Nicole Snyder

Director of Communications, JW Aluminum

“At JW Aluminum, we turn scrap metal into material for essential products. Recycling aluminum is simple but impactful — your container can be back on the shelf in 60 days! Let’s keep it in the loop!”
